DETAILED ACTION

Rejections Repeated

1. The 35 U.S.C. 102(e) rejection of claims 7-11,13-14,17 anticipated by Castle et al. has been repeated as previously made in office action 1/3/2006.
2. The 35 U.S.C. 103(a) rejection of claim 12 unpatentable over Castle et al. has been repeated as previously made in office action 1/3/2006.

Response to Arguments

3. Applicant's arguments filed 3/28/2006 have been fully considered but they are not persuasive.

In response to applicant's argument that Castle et al. fail to disclose a second binder layer formed to seal the printed part in co-operation with the first binder layer, wherein the second binder layer directly contacts both the printed part, along a surface of the printed part which faces the resin panel body, after further reviewing Castle et al., Castle et al. does indeed disclose a second binder layer (figure 2 number 23) formed to seal the printed part (figure 2 number 6) in co-operation with the first binder layer (figure 2 number 22), wherein the second binder layer directly contacts both the printed part (figure 2 number 6), along a surface of the printed part which faces the resin panel body (figure 2 number 20) and the first binder layer (figure 2 number 22).

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
